What will Wabakimi Provincial Park look like in 20, 30 or 50 years?

Planning for the future starts with a look at present. Join us to learn more about the park and discover how you can play a role in helping develop the long range management plan.

Shannon Lawr, Park Superintendent, will explain what is involved in creating a park management plan, what has been done and will be done in the future. Gathering baseline data and soliciting public comments are just a part of the process to create a park management plan.

Shannon will explain how you, the park user, can stay informed on the process. He will also illuminate when and how you should submit your comments and concerns. ([For background see our January 2020 interview.](#))

Sunday, Feb. 21st. 7:00 p.m. CST, 8:00 p.m. EST
